Children's Therapy Services

## We are hiring: Speech Language Pathologist

We are a multidisciplinary private practice, located in Kenmore. We are looking to add another speech pathologist to our team, with a role available for 2-5 days per week.

Pay is above the HP scale award rate, with all resources provided, access to professional development and professional support and supervision.

About us? We are a small practice of 10 team members, including speech pathology, occupational therapy, music therapy, physiotherapy, a behaviour analyst, AHA and admin support. We joined together in our Kenmore clinic in 2022. We have an incredibly relaxed, family friendly feel to our clinic and we look to expand our team with someone who also just 'fits'. We are creating a workplace where we want to be each day and want to keep growing this way, providing families with access to holistic family support, and supporting our team members to create the role that suits their own life and goals.

This role will suit you if:

- you are (or soon will be) a qualified speech pathologist
- you have experience and a keen interest in working with children
- you are looking for real flexibility and autonomy in a role
- you enjoy independence to tailor the role to suit your interests and way of working, while also being surrounded by a like-minded team
- you like getting to build a relationship with the children and families that you work with
- you love all the appeals of a private practice but not working for or by yourself
- you wish to work with a wide range of difficulties in a clinic setting, or to specialise in a particular area of interest

If any of this sounds like you, we would love to hear from you? Come and visit us at the clinic and see if Amaze is the right fit for you. Contact us at [hello@amazetherapy.com](mailto:hello@amazetherapy.com)
